No Hauling on Saturday, Sunday, or Federal Holidays.

Anticipated Start Date: July 12, 2010

Anticipated Duration: 8 months

Anticipated Completion Date: March 16, 2011

TOTAL NUMBER OF TRUCKS

A maximum of 70 truck trips per day using a total of 70 trucks.

Approximately 70,000 yards of material will be transported away from the site.

Approximately 3,500 - 5,600 yards of material will be transported into the site.

STREET MAINTENANCE AND DUST CONTROL

As a minimum, the following "Track-out Control Measures" will be utilized:

- Trucks shall be tarped or possess sideboards.
- Street sweepers shall be utilized if determined by the HBPW Inspector.
- Water truck to be utilized for on-site dust control and clean up.
- Trucks will be inspected for dirt/ mud prior to departure and cleaned as necessary.
- A gravel rock transition shall be utilized at site's exits
- Truck shaker racks will be installed at the site's exits.
- An asphalt entrance shall be installed (encroachment Permit required.)
- No hauling during or following any rain until site material and haul roads are dry enough to prevent trucks from tracking mud onto the streets.
